EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with David Andrew D'Zmura on March 4, 2005.

The application has been amended as follows:

In claim 18, line 17, "if aligning by the procession of the equinoxes" has been deleted and replaced with "the procession of the equinoxes is aligned".

In claim 18, line 19, "if having an origin radius set" has been deleted and replaced with "an origin radius is set".

In claim 18, line 20, "if assigning 30 degrees for each section" has been deleted and replaced with "30 degrees is assigned for each section such that".

In claim 18, line 33, "if aligning by correlation to zodiac constellations," has been deleted and replaced with "the zodiac signs are aligned by correlation to zodiac constellations such that".

The following is an examiner's statement of reasons for allowance: The amendments to the claims have overcome the rejections made in the prior office action. In particular, a means for mapping positions of the zodiac constellations as described in the specification is not suggested in the prior art, as required under 35 USC 112, p. 6. With respect to the rejection under 35 USC 112 of the term "about", applicant's

arguments are persuasive that the scope of the invention is adequately disclosed in the specification and would be understood by one of ordinary skill in the art. As a result, the claims are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kurt Fernstrom whose telephone number is (571) 272-4422. The examiner can normally be reached on M-F 9:30-6:00.
